To all our Business Partners

Hi everybody.

May I say best wishes and care to all of you and your families as we work through the Corona virus issues that currently confront us.

Some of our business partners will remember *the recession we had to have*, The Great Financial Crisis and a range of other confronting and difficult times in our business careers, that we have all struggled through and survived. I sincerely hope we all get through the current crisis.

Arrow Wood Products is committed to working with our partners. To keep you up to date, Arrow Wood Products is still operating 5 days a week, maintaining normal operating hours where possible.

The sales team are active in the market place maintaining social distance requirements where appropriate and are in constant contact with the internal staff in order to deal with any situations that arise, promptly and efficiently.

We ask that our members plus yourselves are all respectful of each other's social distancing requirements. And if you need to have people visit our show room, please call and book an appointment. I understand it's not a perfect solution, but as the Government directives state "Let's get through this and then relax the rules as soon as possible".

Unfortunately, the AWP footy tip competition is currently suspended and it is unlikely to resume given the uncertain future of the AFL at the present time. Our tip master "Rex the Dinosaur" dodged the meteor that got his mates but succumbed to the "Wuhan Flu"

With the view that the footy tipping won't resume, Arrow Wood Products will donate an appropriate amount to a variety of Charities and I welcome any suggestion from you as to who may be suitable recipients.

Thank you for your time, and please keep safe.

Craig and all the team at Arrow Wood Products
